Jiaqi Li

Website | Scholar | jiaqi.li.16@warwick.ac.uk | +44 7421051811

Research Interests: Long Video Understanding; Multimodal Models; Video Temporal Grounding; Embodied AI; Robot Task and Motion Planning; Human Pose Estimation.

EDUCATION

University of Warwick (Coventry, United Kingdom) *2024 - present*
Ph.D. in Computer Science
Supervisor: Yu Guan

The University of Hong Kong (Hong Kong, China) *2022 - 2023*
Hong Kong, China
M.S. in Computer Science

Zhejiang University of Technology (Zhejiang, China) *2018 - 2022*
Hangzhou, China
B.S. in Information and Computing Science
Minor: Computer Science and Technology

PUBLICATIONS

1. **Jiaqi Li**, Guangming Wang, Suntian Zheng, et al. "Towards Mitigating Modality Bias in Vision-Language Models for Temporal Action Localization. " *Association for Computational Linguistics: ACL*. 2026. **Top 1% Overall Assessment.**

PATENTS

1. A method for calibrating the longitude and latitude of aerial image pixels. Patent No.: CN115457124A.
2. A Remote Ischemic Preconditioning Training System and Method. Patent No.: CN107512239A. Co-inventor.
3. A Passenger Seat Belt Status Monitoring System. Patent No.: CN108461158A.

Research Experience

University of Warwick Coventry, UK

Research Assistant *Dec. 2024 - Mar. 2025*

Advisors: Yu Guan

The Hong Kong University of Science and Technology (HKUST) Hong Kong, China

Research Assistant *Oct. 2023 - May 2024*

Advisors: Yi Yang, Zhitao Yin

Teaching & Invited Talk

Video Forensics & Video Compression *Mar. 2026*

Guest Lecture, CS355 Digital Forensics, University of Warwick

Academic Service

Workshop Program Chair

CVPR International Workshop on Vision Intelligence for Real-world Challenges (AI4RWC) *2026*

Conference Reviewer

International Joint Conferences on Artificial Intelligence (IJCAI) *2026, 2025*

International Conference on Machine Learning (ICML) *2026*

Association for Computational Linguistics Rolling Review (ACL ARR) *2026*

The European Conference on Computer Vision (ECCV) *2026*

International Conference on Computer Vision (ICCV) *2025*

Association for the Advancement of Artificial Intelligence (AAAI) *2025*

Projects

An automatic pine wood nematode monitoring system using UAVs, spectral remote sensing, and neural networks *2022 - 2023*

Contributor to a collaborative project with the Forestry Department of Wuyi County, China that secured RMB 3 million in investment.
